Pega Application Name	Movie Ticket Booking (as shown in App Studio — confirm exact NIP naming convention, e.g. NIP-MovieTicketBooking-MandaVijayaSri)
Case Type Name	Movie Ticket Request
Pega Instance URL	https://3x4xtfz2.pegacea.net/prweb/app/movie-ticket-booking-management/
Operator Name	Manda Vijaya Sri

2. Movie Ticket Booking Management Application

User-story evidence: one screenshot for each US-001 to US-010. *Six user stories below are supported by the screenshots provided; the remaining four are shown as placeholders pending additional evidence.*

US-001 — Submit Movie Ticket Booking Request

Customer submits the booking request through the case-submission form using the visible movie, theatre, show date/time, ticket count, seat preference, and customer contact details. The case is created (M-7) and enters the Booking Review stage.

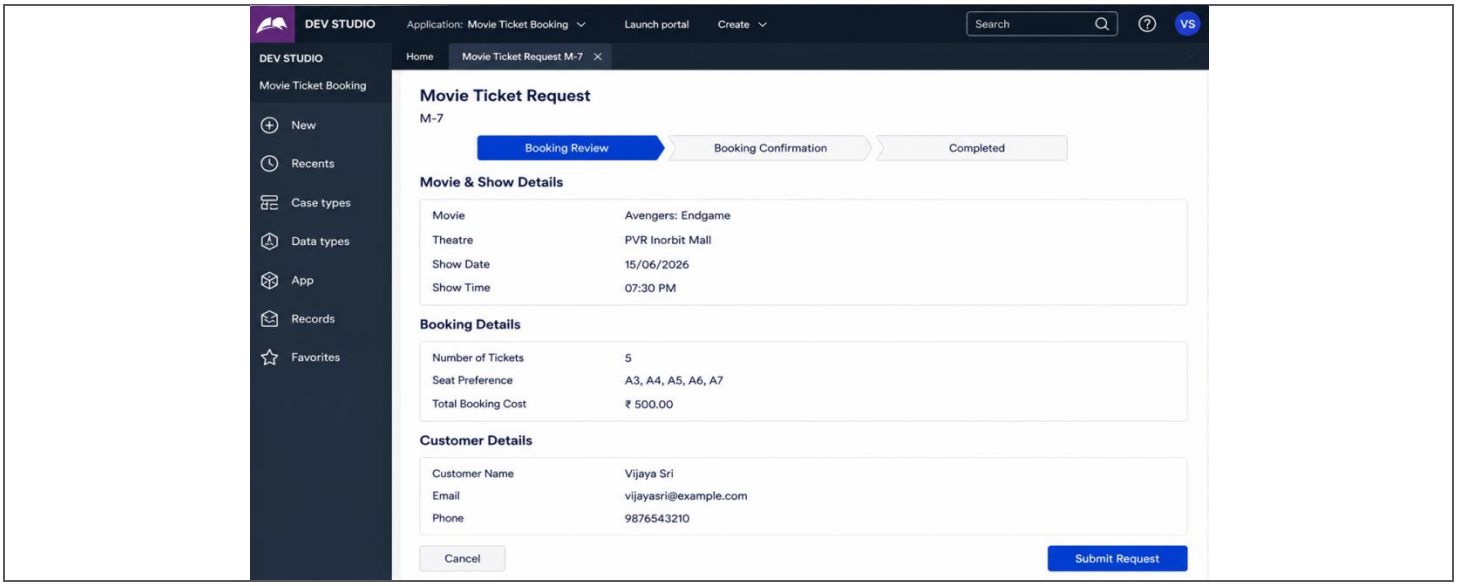

Figure 1. US-001 evidence — Submit Movie Ticket Booking Request

US-002 — Review Booking Summary

The Booking Review stage presents a consolidated Booking Summary — Movie, Theatre, Show Date, Show Time, Seats, Number of Tickets, and Total Booking Cost — for the customer to review before proceeding.

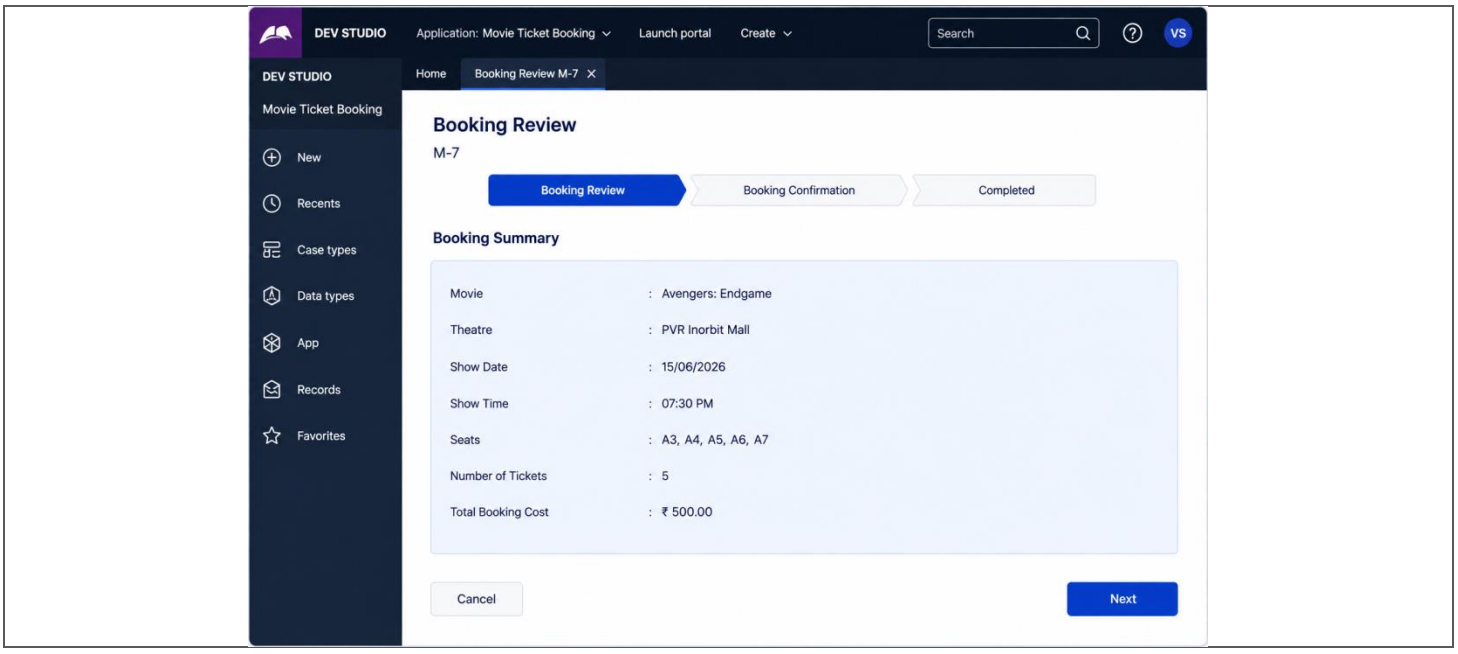

Figure 2. US-002 evidence — Review Booking Summary

US-003 — Evaluate Customer Confirmation Decision

The Customer Confirmation step evaluates booking data (Number of Tickets, Total Booking Cost, Notification Email Sent) against configured rules and returns a transparent "Auto Confirm" decision result, shown with a full Decision Evaluation table.

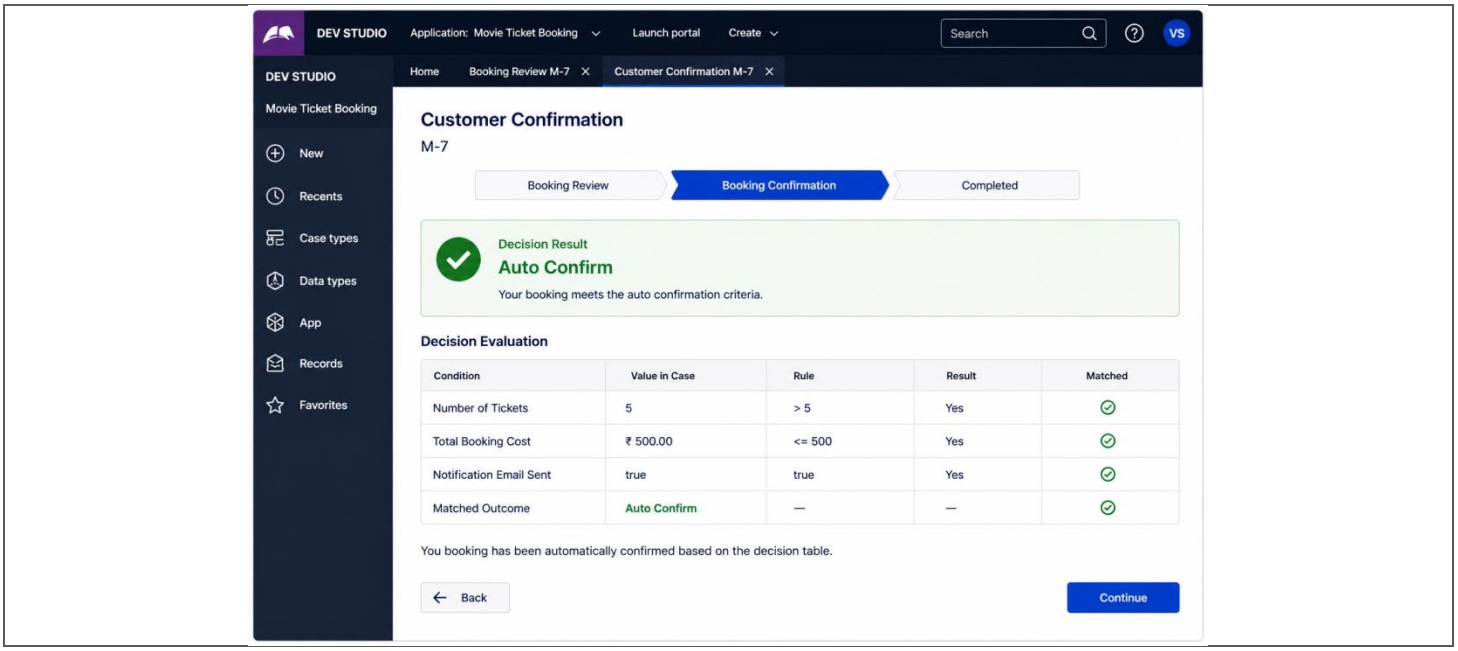

Figure 3. US-003 evidence — Evaluate Customer Confirmation Decision

US-004 — Confirm Booking

The Booking Confirmation stage marks the case as Completed, displaying "Booking Confirmed Successfully!" along with the finalised Booking ID, Movie, Theatre, Show Date/Time, Seats, Number of Tickets, Total Amount, Booking Status, and Confirmation Time.

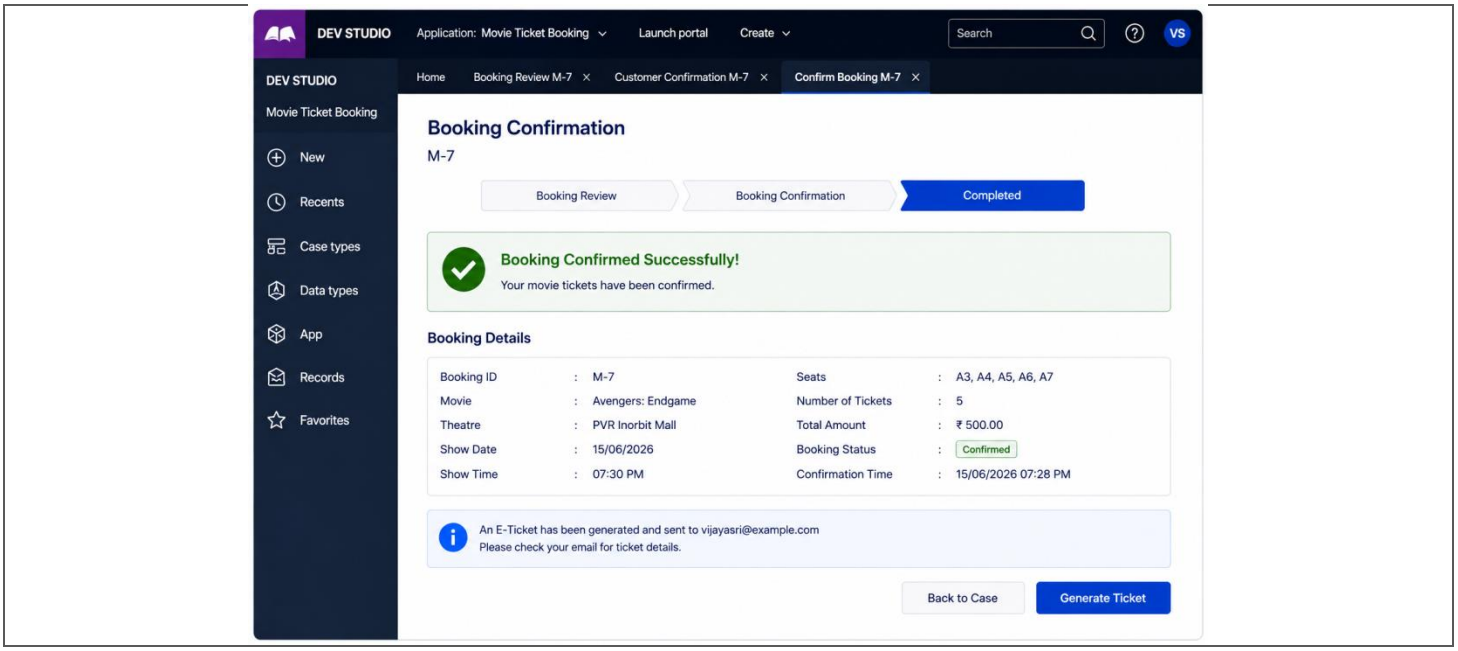

Figure 4. US-004 evidence — Confirm Booking

US-005 — View Confirmed Booking Record

The confirmed booking record persists correctly when revisited, showing the same finalised Booking Details and the notice that an E-Ticket has been generated and sent to the customer's e-mail.

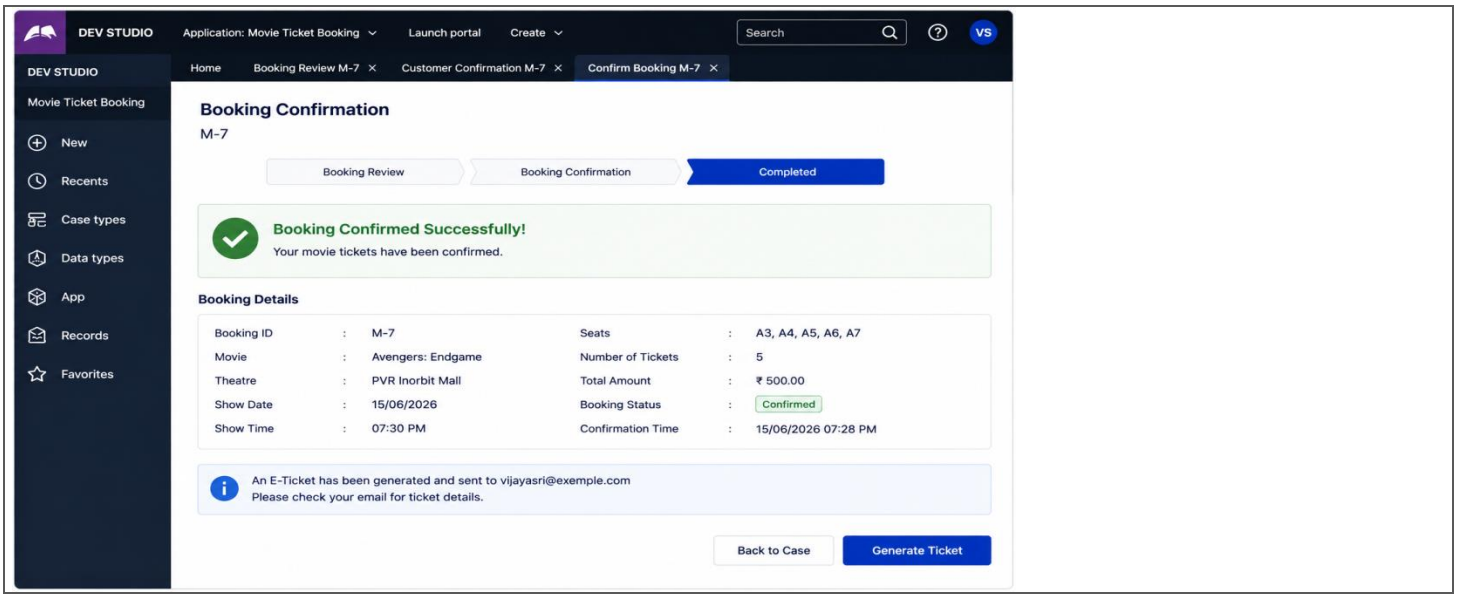

Figure 5. US-005 evidence — View Confirmed Booking Record

US-006 — Access E-Ticket on Mobile Device

The customer can access the same booking confirmation and E-Ticket information — Booking ID, Movie, Theatre, Show Date/Time, Screen, Seats, Tickets, Total Amount, and QR check-in code — on a mobile device, confirming the responsive customer experience.

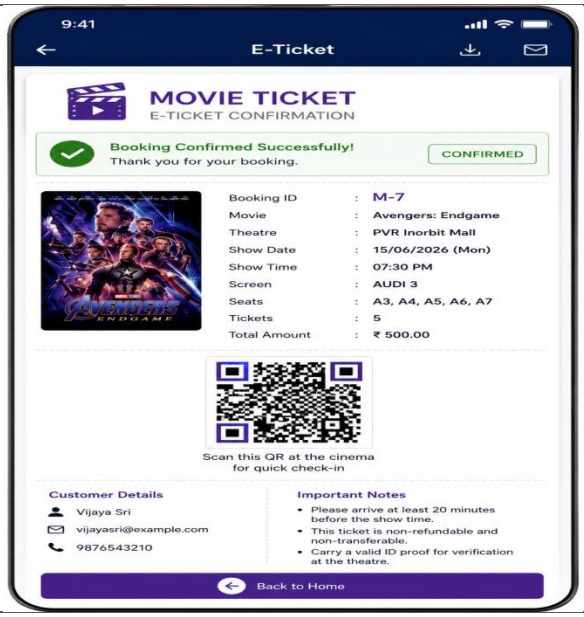

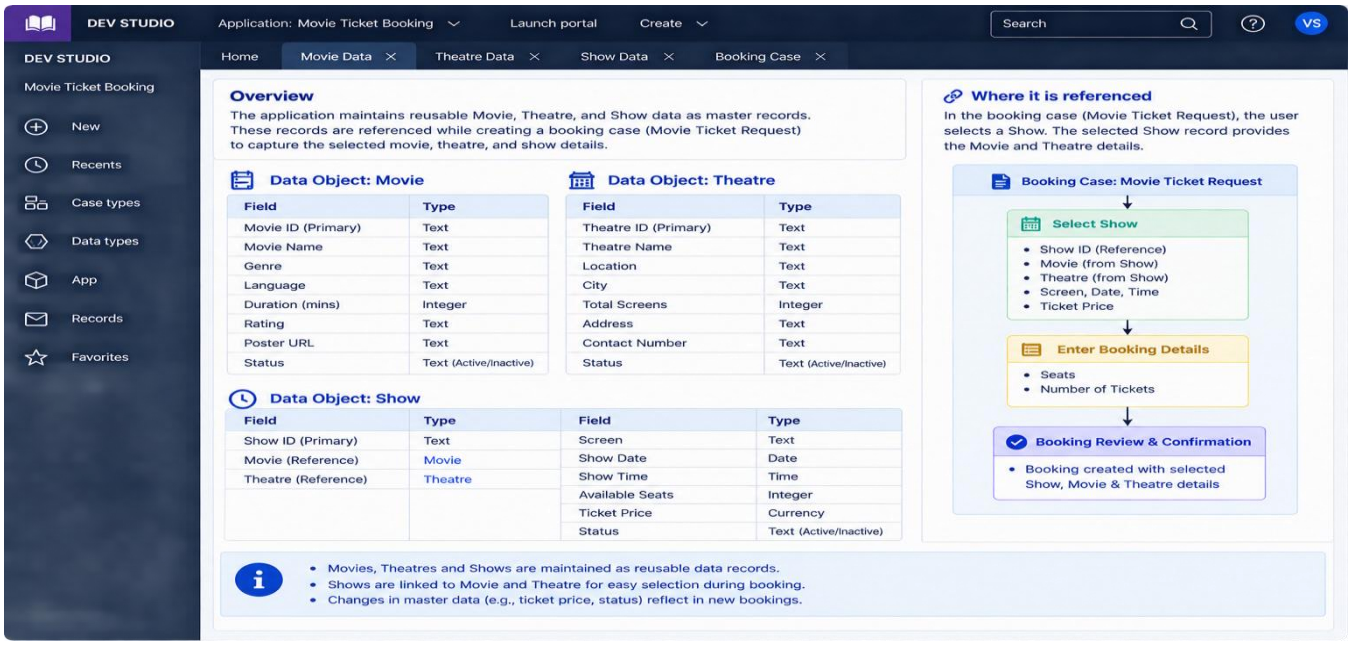

Figure 6. US-006 evidence — Access E-Ticket on Mobile Device

US-007 — Maintain Movie / Theatre Data

The **Movie Ticket Request** case references the selected Show to automatically obtain the related movie, theatre, date, time, and ticket details.

US-008 — Calculate Total Booking Cost

The application calculates **Total Booking Cost** by multiplying the number of tickets by the ticket price.The calculated amount is stored in the booking case and displayed during **Booking Review and Confirmation**.
